FROM:

Dear Ollie,

I share your anger over President Barack Obama and the leftists in Congress' plan to impose a phony "Cap and Tax" scheme on all Americans under the guise of solving the phony "*catastrophic climate change*" or "*global warming*" crisis.

Just how naïve do they think we are! It's time to send the socialists in Washington a strong message that we will not allow them to take away our freedom...

... and I can think of no more symbolic way to dramatically declare our resolve not to be conned by the fraudulent "*global warming*" scam, and into surrendering billions of our hard earned dollars and destroying our economy through the acceptance of the President's and the Congress' "Cap and Tax" nightmare.

Therefore, without any further delay, I am:

- signing my PETITION TO PRESIDENT BARACK OBAMA; and
- rushing it back to you today along with my special, most-generous gift of:
 - \$20 \$25 \$35 \$50 \$75 \$100
 - \$250 \$500 \$1,000 Other \$ _____

PETITION TO PRESIDENT BARACK OBAMA

Whereas, there is no scientific "consensus" on humans being responsible for "*global warming*"; and

Whereas, while some glaciers are melting and some areas of the world are heating up, other glaciers are expanding and other areas of the world are cooling; and

Whereas, climate change has been constantly occurring since the beginning of time and will continue to occur regardless of what mankind does or does not do; and

Whereas, no amount of money can magically affect the world's climate and no phony "Cap and Trade" scheme will change nature or God's will; and

Whereas, the dirty little secret behind "*global warming*," or as it is now called, "*catastrophic climate change*" is that it is a scam designed at increasing the power and wealth of frauds like Al Gore and nations like Red China at America's expense.

Therefore, I hereby want you to know, in no uncertain terms, that the American people vote **NO!** on your plan to force America to accept a prosperity and liberty killing "Cap and Trade" boondoggle as part of the "*solution*" to a phony climate "crisis."
