Subject: Brockway Board of Inquiry

Jerry, I know that you will be checking with the FBI in OKC after the requisite two weeks have past in follow-up to your earlier conversation with them about the status of their investigation, but that may be while I am at Beckley. If you hear anything one way or the other from them, please send me a telemesssage.

Also, we have the original file on the Board up here in our office. You may wish to annotate your file to that effect in case you are looking for the file in the future. Of course, I realize this is far from over and there may be further administrative action after the FBI report and there is a great likelihood of a lawsuit by the family of the inmate.
