Subject: Trentadue missile

This is like coordinating the invasion of Normandy. We are on for Monday; the declination memo is done. Is this ok with Eric's schedule (I can call whoever does that.) I talked to Faith and she is going to think about the best way to approach Hatch, and possibly Dorgan, and I will get back to you. Also, we will be contacting the FBI and Jesse Trentadue at the same time (about 2 hours before the press release.) Thanks, jnk
